Because it is the heart’s eyes that often see first, words alone cannot convey the confidence of soul recognition. Or your strongest connection may be to a soulmate who has not incarnated during your lifetime and who is watching over you from the other side, like a guardian angel. Another benefit is that multiple versions of the Bible, like the King James version or the New International version, can be accessed simultaneously.The Audio BibleIn addition to being available online in text form, the Bible is also available in audiobook. The reader can easily search the online text to find the exact verse they are looking for. Sometimes soul recognition may originate in the mind and may occur even before the heart sees. Frequently rescue fantasies arise with the thought, I can change him; I can help her grow. “The soul is immortal and indestructible. During pregnancy, the soul is gradually more and more attached to the baby’s body.” I went on, “but the attachment is not complete until around the time of birth, either shortly before, during, or just afterwards.” I emphasized this concept by joining my hands at the base of my palms, forming a ninety-degree angle. Sometimes your soulmate is willing and available. It can be read online or downloaded onto multiple devices such as smartphones and tablets. Either the baby’s body would not be healthy enough to carry out its planned tasks in the coming life,” I continued, “or the timing was not right for its purposes, or the outside situation had changed, such as the desertion of the father when the baby’s or mother’s plans required a father figure.”I have learned over the years that people in their first regression often gravitate to the most traumatic event in a lifetime. We hear the excuses of the mind all the time: I’m too young; I need more experience; I’m not ready to settle down yet; you are of a different religion (or race, region, social status, intellectual level, cultural background, and so on). Unfortunately, this often leads to heartache. Their agendas, their lesson plans for the entirety of this life, are different, and they do not want to or need to spend all of this lifetime together. Many of my patients just seem to know. Never worry about meeting soulmates. This provides easy access for the reader without having to carry around the physical book. Late awakenings do happen. If one soul is less developed and more ignorant than the other, traits of violence, greed, jealousy, hatred, and fear might be brought into the relationship. They arrange to meet, to stay together until the agreed upon task is completed, and then to move on. It is not confined. You might choose to marry a less bonded soul companion, one who has something specific to teach you or to learn from you. He or she might recognize the passion and the chemistry between you, the intimate and subtle bonds that imply connections over many lifetimes. In heaven, there are no birthmarks. The less awakened will make decisions based on the mind and all of its fears and prejudices. They may have an identical scar or birthmark as your loved one or perhaps just hold your hand or look at you in that same special way.
